

## ConnectPDU Web/SNMP X-slot Connectivity Card

Product Focus

### Introduction

ConnectPDU Web/SNMP X-slot card allows you to connect your Eaton Powerware PDU directly to an Ethernet network and the Internet. This unique solution allows you to conveniently monitor and manage your PDU with a standard Web browser or Eaton Powerware's E-notify monitoring system.

#### Features & Benefits

- Easy monitoring and management of your PDU using either a standard Web browser or third-party network management software
- Remote control and rebooting of PDU-supplied devices over the network
- Real-time email alarm notification with built-in email capability
- Support for standard PDU MIB and Powerware MIB to provide added functionality
- SSL and SSH data encryption and authentication
- Web pages served automatically in correct local language

HTTP, SNMP, SMTP, WAP, Telnet, SSL, SSH compatibility and a console port enable dynamic and versatile support for a large variety of system configurations.

#### Additional X-slot Connectivity cards for the PDU

##### Powerware Modbus Card

The Powerware Modbus Card is an X-slot UPS connectivity device that provides continuous, reliable and accurate network monitoring of UPS systems through a Building Management System (BMS).

##### Relay Interface Card

Communications and control software are at the heart of any reliable power quality solution.

##### Modem card

Ability to remote monitor the status of the PDU, over a standard phone line.
